Acids and Bases in the Home

ACIDS AND BASES AROUND THE HOME

00:03 / 00:54

Producer: Classroom video
Rating: 0
Year: 2009
Description: This program familiarizes students with the features of acids and bases, and discusses their physical and chemical properties. The program is introduced with examples of strong and weak acids and bases and the concept of neutral substances is explored. The use of indicators to test the pH of acids and bases is explained, as well as showing the variety of indicators available and their specific...

ClickView Online Web Player Features

The buttons within the ClickView Web Player allows you to perform the following functions:

The **'Resources + Chapters'** tab allows you to view both the **'Resources'** and **'Chapters'** tabs. The Chapter tab lists the videos available chapters and the chapter currently playing will be displayed in orange. Clicking the Resources tab will display the available resource documents for the current video (PPT, Word, Excel and PDF). To download a resource, simply click on it.

The **'Video information'** button allows you to see all the available video data including a description of the video's contents.

The buttons to the right of each video allow you to perform the following functions:

ClickView Online allows you to quickly embed ClickView videos within a Learning Management System, Intranet or Blog, giving you greater flexibility with your ClickView library. You can retrieve the URL of a video by clicking on the "Link" button.

If you wish to embed the video, click on the "Embed" button. The ClickView Online URL is already in HTML tags, ready for you to embed in your page.

Click the orange star to add your video to your Favourites tab for reference at a later stage.
